A special note to those who used the 56 and 72 stitch cast on (THIS DOES NOT APPLY TO THOSE WHO ARE KNITTING THE 64 STITCH VERSION): My apologies, I realized this week as I checked over the next few clues that I have the 56&72 stitch cuffs with the wrong

stitch at the beginning of the round. For those who haven't finished the cuff yet, I have corrected the instructions above. For those of you who have finished the cuff make the following adjustments:

You'll need to have your round begin with one knit stitch followed by two purl stitches. Currently you have the round starting with a single purl stitch followed by two knit stitches. To make the adjustment, purl the first stitch on needle 1 and knit the second stitch. Now transfer these two stitches to needle 4. Even out the needles by transferring the first two stitches on needle 2 to needle 1, the first two stitches on 3 to needle 2 and the first two stitches on needle 4 to needle 3. There should now be 14(18) stitches on each needle.

All sizes: Work from the correct leg chart or written instructions for your size. The chart and written instructions will repeat twice around the sock. Work rounds 1-8 five times.
